Melissa,

This is one of the two cases I would like to give you – attached is the information I have gotten from the State. Mr Martin oversaw the removal of the tanks, and no closure report has been provided to the State. It has been difficult for the State to get “good service” on him, as he is located outside WV (he’s up in the Maryland panhandle).

We have been discussing this during Docket, but I’m not sure that I ever formally Tiered it. Here are my Docket Notes:

(b) (7)(A)

Thanks,
Carol
